

TOP Re-launches Life & Legacy Program With Aid of Grinspoon Grant

TOP is pleased to announce that it has received a grant from Harold Grinspoon Foundation to continue the LIFE & LEGACY Program. This 4-year partnership program provides training, support and monetary incentives, to motivate Jewish organizations to secure legacy gifts and steward donors. Those continuing in our year-three program (Cohort 1) will focus on formalizing the commitments they have already obtained and implementing a stewardship plan. Those participating in the new cohort (Cohort 2) will focus on developing a legacy plan and securing new legacy commitments. Participating organizations include day schools, synagogues, Hillels, Federations, JCC's, Jewish service organizations throughout the Tampa, Orlando and Pinellas communities, as well as in Naples and Gainesville.

TOP has played a critical role in securing and sustaining the Jewish future of Central & Western Florida's Jewish community, and the LIFE & LEGACY program has been instrumental in this process. To date, 490 commitments have been made benefiting 46 different nonprofit organizations. Our goal is to increase the number of commitments that support our local Jewish communities, and work with local agencies, organizations and synagogues to formalize these commitments. At TOP, we are here to help members of the community think about giving to something they love and care about, and want to see the Jewish Community thrive for generations to come.
